

Our Story

Scotsburn has a reputation of being the number one ice cream brand in Atlantic Canada. It's an achievement we, as part of the Agropur Dairy Cooperative family, are proud of and continue to strive for by maintaining over a century old tradition of using quality ingredients, beginning with 100% Canadian milk.

The expertise our staff provides enable us to produce award winning ice cream and novelties in both branded and private label categories. The exceptional quality provided in our products and service has garnered the organization the status of being the preferred ice cream and novelty supplier for numerous major retail brands. They've staked their own reputation by trusting us with their branded products; as should you when you purchase Scotsburn branded ice cream or novelties to serve to your family and friends. It's because of you, our consumer that we take the time to make it special.
